

BOLON

We are passionate.
The ones that follow our hearts.
The ones that never stand still.
We are dreamers and innovators.
Humble and confident.
We are all over the world.
And always down to earth.
We believe in creating new dimensions
by challenging traditional boundaries.
Designing great experiences is our game.
And we always play to win.
That's why we deliver beautiful woven
design with an ambition to make
the everyday more attractive.

We are Bolon and we are
innovators by heart.

Always busy, Always fun

“As usual we’ve been busy. We have thoroughly examined the colour wheel and carefully handpicked Bolon’s very own expression when it comes to colour. With insight into all the various colour systems around the world, we’ve created our own map. Done the puzzle – colour by colour. The updated collections Artisan and Botanic now lay the foundation for Bolon’s further development.”

– ANNICA EKLUND, CCO

“We always say that if Bolon stops being fun, we’re out. Our relaunched Bolon Studio is just that – creativity at its best. Playful and fun. Gorgeous, of course, introducing new shapes making this concept a fantasy-come-true and a designer’s tool with mind-blowing options to hyper-personalized flooring. Calculated symmetry with endless possibilities. We really love it – very Bolonish as we say at home!”

– MARIE EKLUND, CEO

PROUDLY PRESENTING OUR PRODUCTS

What pleases the eye comes in many shapes and forms. The wide range of Bolon flooring and rugs gives you the freedom to choose bespoke products and design combinations, making your project truly unique.

Our flooring designs come in a variety of collections. The design concepts Bolon Studio and Bolon By You even let you create hyper-personalized designs.

TRULY: 100%

ARTISAN: Spring

FLOORING

BOLON ORIGINAL

Bolon Original involves our standard collections, all proudly designed and produced by the Bolon design team in Ulricehamn, Sweden. Our flooring can be produced as rolls, 50 x 50 cm tiles, and Bolon Studio tiles. The product types available for Bolon Original vary depending on the collection.

NEWS! BOLON STUDIO™

Curated shapes for hyper-personalized flooring. Bolon Studio is a seductively stylish concept, a woven flooring renaissance playing with spatial intelligence. Simple shapes at first glance... But when put together these curated tiles build mind-blowing immersive expressions.

BOLON BY YOU

The Bolon By You concept is a simple 3-step process that allows you to create your own personally designed flooring. It features both roll and tile patterns, in four warp, and twelve weft colours.

INTERNATIONAL COLLABORATIONS

Over the years, Bolon has enjoyed collaborations with our international friends Missoni, Jean Nouvel Design, and Patricia Urquiola. Together with these world-renowned designers, Bolon has created collections that reflect both contemporary industrial design and architecture, as well as haute couture.

ACOUSTIC FLOORING

Our acoustic flooring offers increased impact sound insulation by reducing the transmission of footstep noise to rooms below. The additional thickness also offers comfort underfoot.

CUSTOMISE

There are nearly endless design possibilities for creating and customising Bolon flooring. We can meet most design requests and ideas. Contact our sales staff for successful customised solutions.

RUGS

BOLON RUGS

By combining the benefits of Bolon flooring with the versatility of a rug, Bolon Rugs serves as another option. Every rug is made-to-measure, giving you the chance to play with sizes and dimensions and to choose from all Bolon Original collections.

Some of our collaborative collections are also available as rugs. In 2023, Rugs will be available as Bolon Rugs by Patricia Urquiola and Bolon Rugs by Jean Nouvel Design. These rugs come with unique preselected trimming designs.

MISCELLANEOUS

GREEN WELD

Bolon Green Weld is an innovative cold-welding product that is non-hazardous for the flooring installer.

NO GLUE

Bolon NoGlue® is a tape that can be used as a non-permanent installation method for temporary installations where traditional adhesives are not possible to use. The product is compatible with our standard tiles and planks for wall-to-wall installations. Using Bolon NoGlue® also makes our flooring recyclable in the future when it reaches the end of its product life.

FLOORING – THE LATEST NEWS

Happily presenting a bonanza of colours with the updated Artisan and Botanic collections. By doing so we have covered a broad colour scale. A scale where the eye travels effortlessly from colour to colour – with a distinct identity and well thought through in its entirety.

Another announcement is that we have reshaped Bolon Studio. This concept of different tiles indulges in geometric, graphic, and organic shapes. A kaleidoscope of wondrous flooring designs made possible, by mixing and matching textures and colours from all the Bolon collections! New dimensions, to shape things up and make any floor a fantasy come true.

BOTANIC: Library

ARTISAN: Wild / Water / Play / Ivory / True

ARTISAN: Wild / Water / Play

Colours for every heartbeat. You feel the Artisan collection – vibrating with colour, energetic and alert.

A combination of characters presenting play and drama if you will. Ready to move you.

BOTANIC: Chestnut / Blanche / Honey / Vintage / Canyon / Spearmint

BOTANIC: Chestnut / Blanche / Honey / Spearmint / Vintage

Colours for every creation. With softer expressions, the Botanic colours transcends what first meets the eye.

It's time to create and complement with new classics.

Shape it up! Curated shapes for hyper-personalized flooring.

Bolon Studio is a seductively stylish concept for us creatives, innovators, and dreamers. Simple shapes at first glance... But when put together these curated tiles build mind-blowing immersive expressions.

Your own fantasy-come-true.

A LOOK AT OUR ENTIRE FLOORING COLLECTION

Our high-end design flooring is the result of a combination of sustainable aesthetics and durable functionality. All Bolon flooring is based on the characteristic Bolon vinyl threads and the woven three-dimensional structure – creating the unique Bolon design.

Our collections offer colours, textures, and patterns with endless possibilities for any given interior design project. For more information about each article's properties, please see the fold-out or [bolon.com](https://www.bolon.com)

BOLON BY YOU: Stripe Black Steel Grey

BOLON BY YOU

We know that every interior project is unique and sometimes requires tailored solutions. That is why we created Bolon By You: a design system that gives you the freedom to easily create personalised flooring. The concept allows you to create designs by combining roll or tile patterns with 4 warp and 12 available weft colours.

- Lets architects and designers create personalised flooring
- Weave on demand
- Environmental certifications and declarations are available
- 15-year warranty
- Durability class 33 – Heavy Commercial

AVAILABLE IN:

Rolls

Tiles

Acoustic flooring

Rugs

STEP BY STEP

- Choose a pattern, both rolls and tiles are available
- Choose from 4 available warp colours (the vertical yarn)
- Choose from 12 available weft colours (the horizontal yarn)
- Order a sample of your personalised design at [bolon.com](https://www.bolon.com)

DESIGNING WITH BOLON ORIGINAL TILES

Our original tiles are readily available as stock items and can be ordered in 50 x 50 cm format (and as planks in the Silence collection). Bolon original tiles are also a slightly thicker option and a proven solution for raised floors.

BOLON RUGS BY JEAN NOUVEL DESIGN: NO. 04

An architect-driven concept covering six colour signatures. The collection amplifies the interior geometry. The rug designs are matched with specific trimming styles in matching colours.

ACOUSTIC FLOORING

With the sound insulation layer, our acoustic flooring is a great choice for premises where sound matters. This is a perfect feature for rooms where you need acoustic insulation to the floor below.

LAYERS – WITH SOUND INSULATION

1. The weave layer consists of vinyl warp and weft yarns tightly woven together
2. The upper backing layer gives the flooring its robustness
3. The middle backing layer consists of glass fibre giving the flooring dimensional stability
4. The bottom backing layer defines the thickness of the flooring and contains recycled material
5. The sound insulation layer consists of a felt material, containing recycled PET bottles, that helps to reduce the impact of sound and noise

<22dB

IMPACT NOISE REDUCTION

A floor's ability to reduce impact noise is defined by the measured sound level in the room below. The given value describes the reduction of transferred noise. By incorporating a felt layer, the impact noise reduction of our acoustic flooring is 21–22 dB.

15%

15% SOUND ABSORPTION

The sound absorption coefficient defines a flooring's ability to absorb airborne sound. With Bolon acoustic flooring this coefficient is 0.15, meaning that the flooring absorbs 15% of the sound energy. The result is a room with a positive acoustic performance, providing a more comfortable indoor environment.

90% RECYCLED PET BOTTLES

Bolon acoustic flooring sound insulation is partly made from recycled production waste and PET bottles.

ADDING ON TO BOLON PERFORMANCE

The acoustic flooring upholds performance in durability, self-extinguishing fire performance, warranty, and water resistance; adding to the list of unique characteristics of Bolon flooring while also increasing underfoot comfort and softness.

WHERE IT ALL BEGINS

ART OF PERFORMANCE

Bolon is a Swedish high-end design brand specialising in innovative premium flooring and rug solutions for public spaces. All products are developed and produced in Sweden, focusing on sustainability, functionality, and design.

DESIGN

We let quality and innovation meet interior design and architecture. Our high-end design products, both flooring and rug collections are all the result of a combination of aesthetics and functionality. All products are based on the characteristic Bolon vinyl threads and the woven three-dimensional structure – creating our unique Bolon design. Making options nearly infinite.

SUSTAINABILITY

Our production site in Ulricehamn is climate-neutral using only renewable energy and has an integrated recycling plant. Here, production waste is recycled into new backing layers. Our additives are non-hazardous, and the PVC material is environmentally labelled.

DURABILITY

Bolon flooring is durable, and strong and retains its appearance without flattening, making it a perfect solution for high-intensity commercial environments. All collections have a classification of 32 (General commercial) or 33 (Heavy commercial) and come with a 10- or 15-year warranty.

CLEANABILITY

Bolon floors are impervious and resilient against spills. The compact weave prevents dirt and debris from penetrating the surface. Daily cleaning can easily be performed with a vacuum cleaner, brush, mop, and clean water.

INDOOR ENVIRONMENT

Bolon floors are inherently hypoallergenic which ensures better indoor air quality. The floors are also free from hazardous plasticizers and stabilizers.

A CLOSER LOOK AT THE PRODUCT

Bolon flooring is constructed of four layers. One top-weave and three backing layers. The four layers provide the product with its unique qualities.

THE WARP

The warp is the vertical vinyl yarn that together with the horizontal weft forms the weave. Two different kinds of warp can be used in Bolon flooring, extruded or folded.

The extruded warp is profiled and comes in solid monochrome colours. The folded warp comes in solid monochrome or metallic shades.

THE WEFT

We extrude our own Bolon weft yarn at our production plant in Ulricehamn. Each thread is extruded into a mono or co-ex line, each with a polyester core.

THE WEAVE

The weave layer is formed by vinyl warp and weft threads woven together tightly. The variations of the warp and weft yarn together with the different weaving techniques, and different looms, gives Bolon flooring its vast design possibilities.

LAYERS

1. The weave layer consists of vinyl warp and weft yarns tightly woven together
2. The upper backing layer gives the flooring its robustness
3. The middle backing layer consists of glass fibre giving the flooring dimensional stability
4. The bottom backing layer defines the thickness of the flooring and contains recycled material

SUSTAINABILITY

CIRCULAR INNOVATION IS IN OUR DNA

As a business, Bolon has always taken pride in doing things in our own way. As each generation of the company has left its mark on our history, we can look back on decades of development and sustainable innovation with a great sense of achievement.

All our collections contain recycled material – our integrated recycling plant helps us to increase the levels of recycled material year by year. In our production, we only use renewable energy with zero climate footprint. Our additives are non-hazardous, and the PVC material is environmentally labelled.

In 2021, we established a new vision for all future sustainability work. Based on this vision, we set new goals. To achieve these goals, we will work with the following three focus areas: circularity, climate, and chemicals.

OUR PROMISE

By 2028, all the flooring we produce will be 50% circular.

By 2028, we will halve the climate impact of our flooring.

PRODUCTION

All our products are produced in Sweden with low emissions and a closed-loop water cooling system. Our integrated recycling plant gives us a great opportunity to include recycled material in all products and continuously increase the percentage used.

CIRCULARITY

All our products contain at least 22% recycled content, according to ISO 14021. In our acoustic flooring, 90% of the felt layer consists of recycled material.

CLIMATE

We have third-party verified EPDs (Environmental Product Declarations), which provide transparency and comparability of our products' climate impact. Our factory runs on 100% renewable energy making our production climate neutral.

MATERIAL

The materials used in our floors and rugs are 79% fossil-free and consist of chalk, PVC, glass fibre and non-hazardous additives. We only use environmentally labelled PVC.

CHEMICALS AND VOC EMISSIONS

Our products are free from heavy metals and hazardous phthalates and fulfils strict requirements of VOC (Volatile Organic Compound) emissions during use.

ELEMENTS: Flint

DESIGNED FOR THE LONG RUN

The unique layered structure of Bolon flooring provides impressive durability qualities. The top layer is made from Bolon threads, creating the characteristic Bolon look and the flooring's resilience. The backing layers enhance the product's performance, adding stability and improving its imperviousness.

SUITABLE FOR COMMERCIAL ENVIRONMENTS

A Bolon flooring is both durable and resilient, following ISO 10874 standard. Depending on product use, classification is 32 (General commercial) or 33 (Heavy commercial).

LONG SERVICE LIFE

A Bolon flooring retains its appearance without flattening, making it a perfect solution for high-intensity commercial environments. Our products are designed and produced to last throughout their long service lives.

WARRANTY

All flooring collections come with a 10- or 15-year warranty depending on the product.

WATER RESISTANCE

Bolon flooring is water resistant and does not allow water to penetrate. However, it shall not be used as a waterproofing/sealing layer in areas like bathrooms.

FIRE RATING

Bolon flooring complies with the requirements in the European standard EN 13501-1 (fire classification of construction products) and has achieved a rating just below non-combustible material. This classification is called BflS1 and includes both fire and smoke production. Bolon flooring is approved for emergency exit routes in Sweden.

ACOUSTICS

The impact sound insulation varies for different products from 9 dB to 14 dB. With Bolon acoustic flooring, the impact noise reduction is 21–22 dB.

NON-SLIP

CE certification for the floor includes a slip resistance assessment. The lowest value for materials used in public areas is 0.3. Bolon's collections have a slip resistance value of >0.5.

ANTI-STATIC

Bolon flooring does not generate a static charge. Our flooring has been tested and fulfils the requirements of the European Directive EN 1815.

NOW: Copper/ Silver / Titanium

EASY TO CLEAN

One of Bolon flooring's key benefits is its ease of cleaning and maintenance. Thanks to the tightly woven vinyl structure and the layers of solid backing, the flooring is impervious to liquids and resilient enough for almost any spill or mess.

ECO-FRIENDLY CLEANING

Most of the cleaning can be accomplished with a vacuum cleaner and scrubbing brush. During Bolon flooring's long product lifecycle, 99% of the cleaning can be accomplished with clean water.

HYPOALLERGENIC

Bolon flooring is impervious to liquids and has no exposed fibres where dust, dirt, or debris can hide. The result is flooring with less risk for mold spores to thrive. Our flooring is recommended by the Norwegian Asthma and Allergy Association as they contribute positively to indoor air quality.

CLEANING METHODS

We recommend vacuum cleaning for daily maintenance. For larger areas, mechanical cleaning with a roller brush or ORBOT method is recommended at the frequency required by the specific environment.

DISINFECTION

If needed, the flooring can be disinfected. If so, make sure to rinse away all chemicals to avoid any damage to the floor.

See the Support page on [bolon.com](https://www.bolon.com) for more information

STAIN REMOVAL

With Bolon flooring, stain removal is straight forward. Most of the times, all you need is warm water, a scrubbing brush and a dry cloth. It is best if the stains are treated right away. Before you use a stain remover, make sure it can be used on vinyl flooring.

STAIN	CLEAN WITH
Chocolate, fat, juice, cream, coffee, beer, wine	Hot water + all-purpose cleaner
Asphalt, oil, shoe polish, chalk, ink	Chemically pure petrol
Water-based glue	Hot water
Solvent-based glue	Chemically pure petrol
Marks from shoes	Rub with dry cloth cloth
Chewing gum	Hot water, steam or freeze spray
See our instructional films about cleaning on bolon.com	

CERTIFICATIONS & DECLARATIONS

Our products and processes have been awarded stringent environmental and health certifications for buildings. These third-party verified certifications are one way of demonstrating and communicating environmental quality. Our declarations provide transparency and availability for everyone. Because Bolon operates in many different markets, we have many different certificates and declarations.

OUR REFERENCE PROJECTS

Using Bolon flooring when creating interiors opens design possibilities that are both beautiful and functional. With a broad palette of shapes, colours, and expressions, only the imagination sets the limitations. We are very proud of all projects worldwide where our design floorings provide a foundation for great interior experiences. The floorings are used in a wide range of commercial interiors such as **offices, hotels, education, retail venues, healthcare,** and **other** facilities such as museums and restaurants.

HEJ, CONTACT US!

We are based in Sweden – but our reach and our products are truly global. With representatives across five continents, help is never far away.

To ensure you receive the best possible support, we work with skilled local distributors. Our representatives are located in many countries and in certain areas we also stock products. As well as providing sales assistance, many of our local partners can offer integrated solutions for installation and maintenance.

Please visit **[bolon.com](https://www.bolon.com)** for more product information or to find your local Bolon representative.
